## DETAILED ACTION

### *Drawings*

1. The drawings were received on 9/14/04. These drawings are approved.

### *Specification*

2. The amendment filed on 9/14/04 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Applicant's amendment to specification in which the limitations **"it is to be understood that a torque produced by the weight of the electronic and optic components is substantially supported by the case 10"** in page 4 lines 9-11 and claims 32, 35-37; and **"the cap 50 is pressure fit into the cavity 32"** in page 3, line 22, are not supported by the original disclosure.

Applicant is required to cancel the new matter in the reply to this Office Action.

### *Claim Rejections - 35 USC § 112*

3. Claims 32-38 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The new limitations in claims 32-37 are not

Art Unit: 2877

supported by the original disclosure as mentioned above. Claim 38 is dependent on claim 33, therefore inherit the deficiency of claim 33.

***Allowable Subject Matter***

4. Claims 1-31 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter:

There was no prior art found by the examiner that suggested modification or combination with the cited art so as to satisfy the combination of all the limitations in claims 1 and 26. As to claims 1 and 26, the prior art of record, taken alone or in combination, fails to disclose or render limitations **“a case having a shape, electronics for measuring a color content of light emitted from the surface being within the case” and “a plurality of case supporting elements, extending over and radially outwardly from the case, uniformly distributed around a perimeter of the case”**, in combination with the rest of the limitations of claims 1 and 26.

***Response to Arguments***

6. Applicant's arguments filed 9/14/04 have been fully considered but they are not persuasive.

a. It is agreed that the specification discloses that **“a monitor calibrator for mounting to a surface in order to reduce the effects of gravity on the calibrator. The calibrator as a shape with a plurality of case supporting elements extending**

**from the case uniformly distributed around a perimeter of the case”**; however, nowhere in the specification clearly states that **“a torque produced by the weight of the electronic and optic components is substantially supported by the case 10”**. Thus, applicant’s amendment to the specification and claims 32, 35, 36 and 37 introduce new matter that not supported by the present disclosure.

b. The new limitation **“ the cap 50 is pressure fit into the cavity 32”** introduces new matter because nowhere in the original specification or drawings show this limitation.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
